## **PEDATRIC APPENDIX ULTRASOUND (PAPP)**

Patient Name: \_\_\_\_\_ MR#: \_\_\_\_\_  
Date: \_\_\_\_\_ Tech initial: \_\_\_\_\_ Ext: \_\_\_\_\_  
Facility: MWH / MIF / ICW / MILH / MINS / MIKG / SH

**Indication:** ☐ Abdominal pain. ☐ Right lower quadrant abdominal pain. ☐ Nausea/Vomiting. ☐ Fever.  
☐ Leukocytosis/elevated white blood cell count.

Patient Age: \_\_\_\_\_ years old

**Comparison:** ☐ None ☐ \_\_\_\_\_

**Technique:** Gray scale/Color doppler transabdominal sonographic evaluation of the abdomen at the site of clinical concern was obtained to evaluate for appendicitis.

### **Findings:**

☐ No dilated, blind ending tubular structure is seen within the (**right lower / right upper**) quadrant abdomen to suggest acute appendicitis.

☐ No fluid collection identified.

☐ Peristalsis of the regional bowel was demonstrated.

☐ Appendix is identified measuring \_\_\_\_\_ mm in diameter [normal <6mm]. There (**is / is not**) associated hyperemia on color doppler imaging.

☐ Abnormal \*\* RADIOLOGIST ADD DICTATION \*\*

☐ Dilated appendix \_\_\_\_\_ mm diameter

☐ Non-compressible appendix

☐ Hyperemia on color doppler imaging associated with the appendix

☐ Appendiceal wall thickening

☐ Free fluid in the \_\_\_\_\_ quadrant of the abdomen

☐ Enlarged right ovary measuring (in cm): \_\_\_\_\_ x \_\_\_\_\_ x \_\_\_\_\_

☐ Abnormal right ovary: \_\_\_\_\_

☐ Right hydronephrosis/hydroureter

☐ Gallbladder abnormal: \_\_\_\_\_

☐ Enlarged right lower quadrant mesenteric lymph nodes present

☐ Oval mass-like structure is seen within the \_\_\_\_\_ quadrant of the abdomen to suggest intussusception.

☐ Peristalsis of regional bowel could not be demonstrated which could be due to local inflammation.

**Impression:** *Preliminary findings/impression subject to radiologist review.*

☐ Appendix visualized, no sonographic evidence of appendicitis.

☐ Appendix was not visualized, appendicitis cannot be excluded. Clinical follow up is advised. Further management per your algorithm. [Radiologist ADD DICTATION]

☐ Positive exam for acute appendicitis. [\*\*\* Radiologist ADD DICTATION]

☐ Abnormal [\*\*\*Radiologist ADD DICTATION\*\*\*]
