

## Penile Ultrasound

### Image Summary

Image :

Measurement:

- |                                                       |                        |
|-------------------------------------------------------|------------------------|
| 1. Transverse Glans Penis                             |                        |
| 2. Transverse Distal external penis                   |                        |
| 3. Transverse Distal external penis                   | 3. Color & PW Doppler  |
| 4. Transverse Mid external penis                      |                        |
| 5. Transverse Mid external penis                      | 5. Color & PW Doppler  |
| 6. Transverse Mid external penis Rt Cavernosal artery | 6. Pulsed Doppler      |
| 7. Transverse Mid external penis Lt Cavernosal artery | 7. Pulsed Doppler      |
| 8. Transverse Mid external penis Deep Dorsal vein     | 8. PW Doppler          |
| 9. Transverse Mid external penis Sup Dorsal vein      | 9. PW Doppler          |
| 10. Transverse Proximal external penis                |                        |
| 11. Transverse Proximal external penis                | 11. Color & PW Doppler |
| 12. Longitudinal Right                                |                        |
| 13. Longitudinal Rt Cavernosal artery                 | 13. Color & PW Doppler |
| 14. Longitudinal Left                                 |                        |
| 15. Longitudinal Lt Cavernosal artery                 | 15. Color & PW Doppler |
| 16. Transperineal Transverse base of penis            |                        |
| 17. Transperineal Long base of penis right            |                        |
| 18. Transperineal Long base of penis right            |                        |

Any abnormality should be documented
