

RAD-AI VOICE COMMANDS

Navigation commands

Voice Command	Action
"Macro [name/custom phrase]" "Template [name/custom phrase]" "Autotext [name/custom phrase]" "Dictaphone [name/custom phrase]"	Inserts template of that name/custom phrase. <ul style="list-style-type: none">• If template has a custom phrase, only the custom phrase works as a voice command—not the template name.• If the template has no custom phrase, only the template name works as voice command.• In either scenario, an exact match is needed (including punctuation).
"Pick [option number/option label]"	Selects corresponding drop-down option from a picklist or observation, and prints its value. Make sure the picklist/observation is selected first. Example: "Pick one". Saying the option number doesn't work if the picklist option numbers are hidden. Instead, use "Pick [option label]". Example: "Pick Soft Tissue Neck". Picklist option numbers and labels are shown in the Outline view in the report workbench.
"Beginning of document"	Moves cursor to start of report
"End of document"	Moves cursor to end of report
"Omni Box"	Moves cursor to Omni Box. Only works if the "Omni" view is enabled and visible in your report workbench.
"Exit Omni"	Exits Omni Box
"Exit Omni field [name]"	Moves cursor from Omni Box to named field
"New line"	Moves cursor to next line
"New paragraph"	Moves cursor to start of new paragraph

"Select [word or phrase]"	Highlights word or phrase
"Select from [word] through [word]"	Highlights all text between (and including) the two spoken words
"Insert before [word]"	Moves cursor to start of word
"Insert after [word]"	Moves cursor to end of word
"Previous field"	Moves cursor to previous field. If the cursor is in the first field of the report, it will cycle back to the last field on using this command.
"Next field"	Moves cursor to next field. If the cursor is in the last field of the report, it will cycle through to the first field on using this command.
"Next blank"	Moves cursor to the next empty field
"Exit field"	Moves cursor to the right, just outside the current field
"Field [name]"	Moves cursor into named field
"Toggle panel" or "show panel" or "hide panel"	Shows/hides the bottom panel of the Reporting workbench
"Toggle left panel" or "show left panel" or "hide left panel"	Shows/hides the left panel of the Reporting workbench
"Toggle right panel" or "show right panel" or "hide right panel"	Shows/hides the right panel of the Reporting workbench
"Show app"	Shows the Rad AI Reporting window (desktop app only)
"Hide app"	Hides the Rad AI Reporting window (desktop app only)
"Toggle app"	Shows/hides the Rad AI Reporting window (desktop app only)

Formatting and editing commands

Voice command	Action
"Bold that"	Bolds highlighted text
"Italic that" or "Italicize that"	Italicizes highlighted text
"Start numbering"	Starts a numbered list
"Stop numbering"	Ends a numbered list
"Start bullets"	Starts a bulleted list
"Stop bullets"	Ends a bulleted list
"Delete that" or "scratch that"	Deletes highlighted text
"Delete last word"	Deletes last word in report
"Undo that"	Reverts back to state before prior command was issued
"Redo that"	Reissues command that was previously canceled with "undo that"
"Select all"	Highlights all text
"Select that"	Highlights text for the next command
"All caps on [word or phrase]" or "caps lock [word or phrase]"	Capitalizes words spoken right after the command. After that, reverts back to sentence case.
"All caps that"	Capitalizes all letters in highlighted text
"Cap that" or "Capitalize that"	Capitalizes sentence first letter (sentence case) in highlighted text
"No caps that"	Applies lowercase to highlighted text

"Open Paren" or "Open Parenthesis"	Starts a parenthesis
"Close Paren" or "Close Parenthesis"	Ends a parenthesis

AI feature commands

Voice command	Action
"Omni Impression"	Generates an impression based on the report content.
"Omni Unchanged"	Generates an impression that references findings from previous study.
"Omni Report"	Populates the entire report based on your Omni Box dictation.

Document management commands

Voice command	Action
"Sign report" or "sign final"	Signs report and exits
"Sign prelim"	Signs report in preliminary status and exits
"Draft report"	Marks report as 'draft' status and exits
"Ready for review"	Marks report as 'ready for review' status and exits
"Delete report" or "discard report"	Deletes the report. Only works if the report is in draft status, you have the "Delete Report" permission, and you're listed as an author on the report.
"Stop dictation"	Turns off the microphone
"Save draft" or "save document"	Saves the document
